SUMMARY

I am a full-stack software developer with a strong passion for front-end, graphics, and animation. I have focused my skills on technologies such as HTML, CSS, JavaScript, React, and Next.js.

I am passionate about running and find balance and challenges in both my professional and personal life. I love reading fantasy books and writing stories/novels to stimulate my creativity.

WORK EXPERIENCE

Enerj

SANT'AMBROGIO DI VALPOLICELLA (VR)

Full stack developer

Oct 2021 - Present

- Preprocessor development in C# and .NET 6
- I worked on web applications for electronic invoice management using the Razor Pages system for generating dynamic web pages, together with technologies such as HTML, CSS, Javascript, JQuery, on the front-end side, and C# on the back-end side.
- I also carried out graphic and layout revisions on web apps as a front-end developer and created client application interfaces from scratch with WPF and C#, studying layout and user experience
- Theoretical knowledge of the Agid system with participation in an advanced course

Kosme

ROVERBELLA (MN)

Technical support and training

Jul 2016 - Sep 2021

- Technical support for mechanical, electrical and software problems of labelling machines. Remote and on-site support.
- Technical training of internal and external workers (customers and technicians) in Italian and English.
- Drafting, translating and creating technical manuals.

EDUCATION AND CERTIFICATIONS

Computer science / diploma

2009- 2016

Institute ISIS Carlo Anti

English certificate of attendance level FL7 = B1

30/06/2021 - 07/12/2021

Fluentify [Certificate B1](#)

Junior front-end developer

15/05/2021 - 26/04/2022

Start2impact [Certificate front-end](#)

During this course, I acquired a solid foundation of skills in front-end development, particularly in technologies such as HTML, CSS, JavaScript, and React. This enabled me to create interactive, engaging, and responsive user interfaces to enhance the user experience. The knowledge gained during the course was put to the test through practical assignments and evaluated by experienced tutors in the field.

React academy

Oct 2022 / 4 weeks

TalentFactory [Certificate react academy](#)

Teacher: Fabio Biondi & Michele Stieven

The following topics were covered in this course:

- React Fundamentals
- Real World Projects
 - Declarative Data Fetching with React Query
 - Multi-view applications via router
 - Application security
- React Deep Dive
 - Project organisation
 - Advanced components
 - Introduction to testing
- State Management
